## Objective :

My professional goals is to see my artistic and technical skills grow as much as possible over time. I also want to focus on creating good working relationships and understanding different people's personalities and skills.

**Skills** : 3D Modeling, Texturing, Lighting, Animation, Dynamics, Rendering, Compositing, Motion Graphics.

**Programs Known** : Autodesk Maya, Realfow, Blender3D, Aftereffects, Photoshop and Nuke.

**Experience** : **3D Generalist / Fx Artist**  
(HQVFX Computing Lab Pvt. Ltd)

Worked as a Digital Artist at HQVFX Computing Lab Pvt. Ltd. Responsible for all types of visual effects. Work includes R&D, and creating shots with photo dynamic effects. Along with that worked on tool developments for in-house pipeline.

(June 2012 To October 2013 )

### **Freelance 3D Generalist**

Worked as a freelance artist for various clients.

Seamlessly integrating After Effects and Maya to create appealing results

Work includes: 3D scene setup, Product design, visualization, dynamic simulations.

Created 3D Product and logo design for BiopharmX Company. 3D modeling, texturing, lighting (TV Commercial) for ecoaststudio Boston (USA) .

(Nov 2013 To Oct 2014)

### **3D Generalist**

(HQVFX Computing Lab Pvt. Ltd)

Worked as a Lead 3D Generalist, delegating work and overlooking other CGI artists, ensuring the highest quality of work.

Responsible for various projects, executed specific techniques along-side other artists to ensure an outstanding final product.

(Dec 2014 To May 2015)

**Education** : 3D Animation and visual effects from Maya Academy Of Advanced Cinematics, New Delhi (India)

**Strength** : Dynamic simulation, photorealistic lighting and rendering, compositing.  
Enthusiastic and problem solving attitude.  
Great attention to details.  
Very organized.  
Ability to learn fast.

**Interests** : VFX Techniques, Programming, Movies, Reading Books and always try to learn some new thing to improve my skills.

**References** : Available upon requests.
